## LABORATORY TECHNICIAN

### £22,500 Full Time

YouSeq is a biotechnology company that makes molecular testing kits that are used in hospitals and labs around the world to help fight cancer and other diseases.

We are looking for a meticulous individual to join our team to help manufacture and dispatch testing kits. The successful candidate will, after training, play an important role in our daily operational responsibilities. On the surface our manufacturing processes are simple. They all centre around putting chemicals in tubes. But to do it efficiently and at scale takes precision, organisation and brilliant record keeping.

The ideal candidate will be well-organised, friendly and a good communicator. Essentially this is a technician role to help and support the daily operational activities of the company.

Job responsibilities include but are not limited to:

- Stocktaking
- Purchasing and Goods-in
- Dispatch and shipment of customer orders
- Maintenance of stocks levels of basic components (including some basic pipetting)
- Daily calibration and data monitors logging

Essential skills/experience:

- 2+ years laboratory technician experience
- Time spent working in an accredited laboratory
- Demonstrable organisational skills
- Good work ethic and willing to learn
- Good communicator and team player

Desirable

- Science based A-Level
- qPCR experience

Benefits:

- Casual dress
- Company pension
- Private medical insurance
- Buy and sell annual leave scheme
- On-site parking

If you would like to apply, please forward a covering letter and CV to [hr@youseq.com](mailto:hr@youseq.com)
