## MANUFACTURING TECHNICIAN (MOLECULAR BIOLOGY)

£17-22k per annum dependent on experience

YouSeq is a biotechnology start-up. We make test kits that are used in hospitals and labs around the world to help fight COVID19, cancer and other diseases.

We are looking for a meticulous individual to join our team to help manufacture qPCR test kits. The successful candidate will, after training, play a key role in our manufacturing process. On the surface our manufacturing processes are simple. They all centre around putting chemicals in tubes. But to do it efficiently and at scale takes precision, organisation and brilliant record keeping.

YouSeq is a start-up and this role comes with all the fun that that brings. Your work-life will be varied and the company is growing fast. You'll need to be ready to pivot and move as the company grows.

The ideal candidate will be a meticulous perfectionist; good at organising processes and keeping accurate records.

### Essential skills/experience:

- Use of Gilson pipettes to dispense precise volumes
- Demonstrable precision and organisation skills

### Desirable skills

- Knowledge of qPCR as a technology
- Experience of using qPCR as a technology
- Experience of working in ISO13485 manufacturing environment

If you would like to apply, please forward a covering letter and CV to [hello@youseq.com](mailto:hello@youseq.com)
