£Competitive +Bonus Scheme +Endless Opportunity

YouSeq is a biotechnology company that makes molecular testing kits that are used in hospitals and labs around the world to help fight cancer and other diseases.

We are looking for an ambitious individual to grab an opportunity to make a name for themselves in our business as it continues to grow. The successful candidate will have a varied and interesting job playing a central role in running the business's ISO13485 Quality Management System.

The ideal candidate will have a life science degree and 2+ years of relevant experience in an ISO13485 environment. They will be a meticulous, high-energy individual with a great attention to detail and excellent communication skills. They will be confident enough to work alongside and critique all members of the company and have a pragmatic, intelligent approach to ensuring things are done properly.

The role will be varied and dynamic but will include:

- Support staff working within QMS of ISO13485
- Drive improvement within the company through management of non-conformances and observations
- Ensure quality policy & processes support strategic business plans
- Execute & support internal audits of business functions
- Support creation & review of documentation & records required for product development, implementation & lifecycle are compliant
- Undertake training of staff particularly in relation to familiarity of company processes

Essential qualifications

- Life science degree
- 2+ years' experience in QA/RA role

Desirable

- Working knowledge of ISO13485
- Working knowledge of molecular biology techniques (DNA sequencing and or qPCR)

Skills

- Meticulous attention to detail
- Good communication skills
- Problem solving
