Quality Manager

£35-40k per annum + profit share scheme + endless opportunity

YouSeq is a new biotechnology start-up. We make molecular testing kits that are used in hospitals and labs around the world to help fight COVID19, cancer and other diseases.

We are looking for an ambitious individual to grab an opportunity to make a name for themselves in our business as it grows. The successful candidate will lead the company's Quality Management System.

YouSeq is a start-up and this role comes with all the fun that that brings. Your work-life will be varied and fast moving. You'll need to be ready to pivot and move as the company grows. We can't offer you a defined career path, but we can offer you an infinite opportunity to have influence, to shape, to do good and to have a fast-growing career in a fast-growing company.

The ideal candidate will have a life science degree or 5+ years of relevant experience in a QA role. They will be an innovator and look to build a streamlined, efficient quality management system to strengthen and not slow the business. They will be confident and have people skills to work alongside and critique all members of the company and have a pragmatic, intelligent approach quality management.

The role will be varied and dynamic but will include:

- Oversight of ISO13485 QMS
- Support CE marking of clinical diagnostic kits
- Maintain documentation and keep meticulous records
- Carry out internal audits to drive improvement within the company

Essential qualifications

- Working knowledge of ISO13485
- Life science degree or Biology A level

Desirable

- Working knowledge of molecular biology techniques (DNA sequencing and or qPCR)

If you would like to apply, please forward a covering letter and CV to hello@youseq.com
