Temporary COVID19 PCR test Manufacturing Technician

£10 per hour. Flexible (4-6 week placement September - October 2021)

YouSeq is a significant contributor in the fight against COVID19. We make test kits that are used in hospitals and labs around the world to help fight COVID19, cancer and other diseases.

We are looking for a team of 10 meticulous individuals to join us on a temporary basis to help manufacture a large order of COVID19 PCR test kits. The successful candidates will, after training, play a key role in the manufacture of life saving COVID19 PCR test kits.

No experience is necessary, but an aptitude for detailed precise attention to detail is essential.

On the surface our manufacturing processes are simple. They all centre around putting chemicals in tubes. But to do it efficiently and at scale takes precision, concentration, organisation and excellent record keeping.

The ideal candidates will be a perfectionist; good at organising processes and keeping accurate records.

Essential skills/experience:

- Meticulous attention to detail.
- Excellent concentration skills
- Demonstrable precision and organisation skills
